#1. JSWSTEEL.NS

| | | |
|---------------------------|-----------------------------|----------------------------|
| Conviction: MEDIUM | Probability: 5140.0% | Last Price: ■1145.2 |
| Target: ■1198.09 | Stop Loss: ■1113.47 | Upside: 4.6% |

Analysis:
JSWSTEEL shows the highest probability of upward movement in the provided data. While the conviction is low, the potential upside to the target price offers a favorable risk-reward ratio, making it a potentially attractive short-term pick.

#2. TATAMOTORS.NS

| | | |
|---------------------------|-----------------------------|---------------------------|
| Conviction: MEDIUM | Probability: 5136.0% | Last Price: ■396.6 |
| Target: ■477.41 | Stop Loss: ■348.11 | Upside: 20.4% |

Analysis:
TATAMOTORS presents a strong potential gain if it reaches its target price, relative to its current price. Although conviction is low, the high potential upside makes it an appealing option for a speculative trade.

#3. BHARTIARTL.NS

| | | |
|---------------------------|-----------------------------|-----------------------------|
| Conviction: MEDIUM | Probability: 5130.0% | Last Price: ■1638.65 |
| Target: ■1731.31 | Stop Loss: ■1583.06 | Upside: 5.7% |

Analysis:
BHARTIARTL has a reasonable potential upside with a defined stop loss to manage risk. Despite the low conviction, the stock's probability of upward movement and the set target make it a worthwhile consideration for a short-term investment.
